

Please find enclosed an invitation to the official opening Ceremony of our new cabin. Cylch Meithrin and Ti a Fi Mornant have been extremely lucky and have been gifted an almost new Porta cabin, that is twice as big as our former cabin.

It has been a very busy but exciting 10 months, with lots of work taking place at school at home and in the workplace, by many wonderful people, to whom we would like to thank.

Firstly we would like to thank Mr Mike Bradley and Mrs Lynne Jones, who have been the driving force behind this project, and without them this would not have been possible. Mike, who is the parent of a little boy in Cylch, has been the project manager and has made sure that everything has run smoothly, from day one Mike has been behind this project with enthusiasm and determination. Lynne, our Deputy Head, has been a huge part of this project too, always enthusiastic and supportive, working hard helping to secure the grants, we spent the majority of our summer holiday completing paperwork for the grants, even whilst in Spain with her family, Lynne was always happy to answer emails.

We would also like to thank Mr Jim O'Toole, Managing Director at Port of Mostyn, who very kindly allowed us to keep the cabin on site for much longer than anticipated.

Mr Haydn Hughes (Construction Director Hollingsworth bros) who's knowledge and hard work has been unmeasurable.

Gwynt y Mor windfarms, from whom we were granted £10,000 and Coalfields regeneration from whom we were granted £7,000. We are so lucky and grateful.
